Notes:

1. This document shall include information on matters concerning your educational abilities and professional achievements as well as major books and papers you have published in relation to the class subjects you have applied to teach.
2. In the “Book/Paper title” field, enter the titles of books, academic papers, and other publications in chronological order with a number assigned to each title.
3. In each “Description” field, enter specific descriptions of each item presented in the “Matters concerning educational abilities,” “Matters concerning professional achievements,” and “Book/Paper title” fields (around 200 characters in Japanese, or around 100 words in English accompanied by a Japanese translation in each field). Add a Japanese translation to the English descriptions if possible, though this is not imperative if your native language is not Japanese.  
 For co-authored books/papers, specify the part and the number of the pages you were responsible for, and enter the names of all authors including yours in the same order as written in the book/paper.
4. Your handwritten signature can substitute for “(Seal)” following “Name.”
